

SMITH RESIDENCE

Landon Bone Baker Architects

Chicago, Illinois
Cook County

Located in Chicago's Lakeview neighborhood, the Smith Residence is a newly constructed, 2,100 sq.ft., single-family home for a family of four. The controlling idea for the design was the client's wish to have a "contemporary cottage". The house is modest in overall scale; with carpenter crafted exterior detailing that brings personality to the simple form. The cabinetry, stairway and fireplace are custom designed and built elements, which define the rooms/spaces within the open plan.
